Hollywood Hills West Board of Directors <board@hhwnc.org>

Wow. Thank you, Don, for this notification and clarification on FORC's position RE developments in RUNYON Canyon.

It's very welcome news. We all hope things can be resolved amicably as we are all neighbors and friends who share the goal of preserving and protecting this amazing piece of wilderness within our neighborhood. It's a gift to us all as well as future generations.

HHWNC's mission is to protect our stakeholders by providing information via public notice and outreach, as you know....information on many topics including our beloved RUNYON. For this reason we created the Parks & Open Spaces position on our board and we are looking forward to working alongside STACY who is an old friend and fellow neighbor.

Thank you so much for this communication.

Best,

Anastasia

Dear Anastasia, Sheila, and Jeff:

I want to let you know about two important changes with our Foundation.

1. The Friends of Runyon Canyon Foundation Board of Directors elected a slate of officers last night as part of our normal officer selection process. With our focus on improving the outreach and communication with the community and all Runyon Canyon stakeholders, we have established a new position dedicated to the Foundation's Outreach. The new position, Vice President – Outreach, is headed by Ms. Stacy Sillins who will oversee the Foundation's relationships with the City offices and community stakeholders. We gladly anticipate a close relationship with the HHWNC Parks and Open Space Representative as well as the HHWNC Outreach Chair to ensure excellent transparency with the Foundation's activities.

2. The Foundation's Board of Directors has also voted to recommend cancellation of the Runyon Court Renovation Project. Please see the enclosed email which was sent the Councilmember David Ryu's office today.

Please let me know if there are any questions or thoughts. Thank you and we look forward to improved working relationships,

Don
